Summary

Full Stack Developer | MERN Stack | 2+ Years Experience

Results-oriented Full Stack Developer with 2+ years of experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven ability to build scalable and user-friendly web applications, develop secure RESTful APIs, and optimize performance. Skilled in both frontend and backend development, database management, and cloud deployment. Passionate about solving complex problems and creating seamless digital experiences. Looking for a role where I can contribute my expertise to innovative projects and grow as a developer.

Experience

Tosh Consult

Full Stack Developer • ilorin,kwara   08/2024 - 03/2025

- Led and managed project development, ensuring timely delivery of high-quality results while implementing new website features like conditional logic, data filters, and pricing models.
- Optimized website performance by resolving code conflicts and improving speed, increasing our global search engine ranking by +200 through Google's Page Speed toolkit.
- Enhanced revenue through upsells and cross-selling, while improving the customer satisfaction score by +24% based on performance metrics.
- Made strategic decisions on the tech stack, enhancing project scalability and efficiency, and mentored developers on coding best practices and problem-solving techniques.

Kwara Tech

Software Engineer & Tutor • ilorin,kwara state   11/2017

- Developed and deployed new web and mobile applications across multiple platforms, ensuring smooth functionality and user experience.
- Led the design and maintenance of multiple company websites, including marketing, promotional, sales, blog, and customer service sites.
- Managed a team of 4 front-end developers and designers, fostering collaboration to deliver high-quality results.
- Played a key role as a course creator and web developer for the Learning Management System (LMS), optimizing authentication, course management, and responsive design.
- Addressed and resolved technical issues, ensuring systems ran efficiently and effectively across all platforms.

- Developed applications from scratch using HTML, CSS, and JavaScript while enhancing overall website performance.
- Mentored students in web development, teaching coding best practices and balancing hands-on project development with real-world experience.

Span Unilorin

Front End Web Developer • ilorin   02/2022 - 07/2024

- Hired on a contract basis to manage and rebuild Span Unilorin's outdated website, leading a complete redesign and development process.
- Developed a clean, user-friendly static website, significantly improving its functionality, performance, and content structure to enhance the user experience.
- Led the conversion of the old website from HTML to a modern, responsive HTML5 framework, optimizing it for better performance and accessibility.
- Created and implemented new tools such as a content management system (CMS), file management system, and workflow system, streamlining website operations.
- Recognized for exceptional contributions with the 'Tech Bro of the Year' award during graduation night, celebrating my outstanding performance and impact on the organization.

Education

University of Ilorin

Bachelor of Science • ilorin, Kwara state   07/2024

Awarded the **Tech Bro of the Year** during graduation for outstanding contributions. Recognized for excellence in my department and consistently delivering high-quality work.
